

Soils and Subsoils from a Sanitary Point of View With Especial Reference to London and Its Neighbourhood

Filesize: 5.75 MB

Reviews

This publication will never be effortless to get started on reading through but very entertaining to read through. It normally is not going to expense too much. I discovered this publication from my dad and i encouraged this book to find out.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 38 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1906 Excerpt: . . . expected. Reference has been made (pp. 16, 29) to the Market Gardens in the Thames Valley to the west and south of London, situated on a loamy subsoil or on a loamy soil overlying sand and gravel. Reference has also been made to the thin Chalk soils (p. 37). Porous soils as a rule are moister in hot weather than clays, and Chalk, as is well known, may contain sufficient moisture to keep a lawn verdant when the grass suffers on other subsoils. Poplars absorb much moisture from the ground. With regard to Nursery Grounds a large area which will provide a diversity of subsoil is of course desirable, and it is needful also in selecting suitable sites both for Nursery Grounds and Orchards, to consider the aspect, and the shelter that may be afforded from northerly and easterly winds by higher grounds or belts of trees. The loamy areas in the Bracklesham Beds to the south-west of Chertsey may be mentioned as affording good soils. It is estimated that a supply of water equal to 400 gallons per day is desirable for each acre of Nursery land. For horticultural purposes, the best supply is that obtained direct from the clouds, and every effort should be made to collect and preserve as much rain water as possible. W. Williamson, The British Gardener, 1901, p. 55. CHAPTER IV. WATER-SUPPLY AND DRAINAGE Beyond the confines of Greater London the question of water supply is one that may have to...
