Analog Experimental Course (college application-oriented family planning materials of Electrical and Computer)

By WANG LU YUN // ZHANG HUI

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 135 Publisher: Dalian University of Technology Pub. Date :2011-01-01 version 1. Contents: Chapter 1 1-1 diodes and diode polarity and circuit experiments to determine the quality of the diode volt-ampere experiment 1-2 characteristic curve of the diode nonlinearity test experiments 1-3 1-4 experimental knowledge of the large-signal diode model analysis of experimental application of diode 1-5 (a) the application of diode experiments 1-6 (b) Experimental Design 1-7 type of experiment (a) parallel diode small-signal model-based control circuit experimental design experiments 1-8 (b) the simple amplitude modulation signal generation circuit design of experiments 1-9 type experiment (c) logic level detection circuit experimental design type test 1-10 (d) low-power communication devices send and receive control circuit switch transistor and Chapter 2. 2-1 transistor circuit experiment to determine the polarity of good and bad experiments 2-2 the basic working conditions and the transistor output characteristics of radiation experiments 2-3 pole amplifier and a static working point commissioning experiments 2-4 emitter bias amplifier circuit design and main parameters of the test experiment experimental 2-5 2-6 emitter-follower type of experimental design (E)...

Reviews

Undoubtedly, this is the best function by any writer. This really is for those who statte there was not a really worth reading. Its been written in an exceptionally basic way which is merely right after i finished reading through this book by which really transformed me, change the way i really believe.

This sort of ebook is everything and made me hunting ahead of time and more. I am quite late in start reading this one, but better then never. I found out this publication from my dad and i suggested this publication to discover.
