GAO found that DOT has made progress in implementing the act, considering the scope and diversity of its programs and activities. However, GAO also found that: (1) DOT has not developed written procedures for the internal control process; (2) while DOT has acknowledged the need to better document the vulnerability assessment process, it has not determined what documentation is needed; (3) vulnerability assessments could not be readily related to internal control reviews or other corrective actions; (4) training in implementation of the act was not provided until after much of the implementation process was completed; (5) DOT has not established a process for tracking the results of internal control reviews; (6) DOT may not have identified all of its material internal control weaknesses; and (7) DOT did not adequately define the role of its Office of Inspector General in the internal control process. In addition, GAO found that DOT made a good effort to comply with the acts requirements regarding accounting system reviews, but noted that DOT did not: (1) incorporate testing procedures into its systems compliance evaluations; or (2) develop procedures and guidance for consolidating the reports of decentralized units into the overall DOT statement of compliance.
