The holes at the back of seat must be pierced to the insole and a quarter of an inch asunder. When the last is drawn, stitch the seat with a rather stouter thread than that used to sew in the box. Pare your sole to boot, skive the waist, tap it with hammer, and let the sole go through from toe to heel to insure the heel from breaking away at the waist. Channel the sole, stick it on, take an eighth of an inch hold on the box and stitch through the channel, using a round bent awl to prevent one stitch cutting the other. When the sole is stitched on, close the channel, hammer out, screw the sole, press up edge of channel with forepart iron, rasp and scrape the edge, being careful not to injure the...
